OVER 1000 MISSING IN SAN ANTONIO MYSTERIOUS MURDER STIRS CHICAGO PRESBYTERIANS TO DECIDE ON \$150,000 CHURCH BUILDING

San Antonio—Overwhelmed by Greatest Flood Since 1913, Which Devastates Business and Residential Districts—Bodies of 60 Victims Recovered

SAN ANTONIO, Texas, Sept. 10.—From 100 to 1000 persons are estimated to have been drowned and property loss estimated at from \$2,500,000 to \$5,000,000 has resulted from floods that inundated a large section of San Antonio today.

The greatest loss of life was in the Mexican settlements, in the western part of the city, where the flood water engulfed their homes before the occupants had a chance to move to safety. The southern section of the city was also hard hit by the swirling water, and 1000 homes in this district were destroyed.

Food and tents to feed and shelter the thousands made homeless were rushed to relief headquarters this afternoon. By nightfall all refugees had been housed and cared for.

Scores of families have been driven from their homes and bridges in the business section washed away. All of the lowland sections of the city are inundated by water overflowing from the San Antonio river and the Alazan creek, which were swollen by a 24-hour downpour of rain. Soldiers are patrolling the downtown districts to prevent looting.

Five bridges, spanning the San Antonio river into the center of the city, were destroyed.

The three newspaper were flooded and, with no news facilities, wild rumors filled the streets. Relief work was badly handicapped and, to add to the misery, there was no light, water, telephone or telegraph service today. Every effort has been directed to the water mains, to guard against a possible conflagration.

Up to a late hour this morning 21 bodies, mostly those of women and children, have been recovered.

SAN ANTONIO, Tex., Sept. 10.
—At noon today army and city workers had recovered the bodies of 60 dead in the appalling flood which swept this city early today.

Only a small portion of the flood area had been searched, however, and it was believed that the total dead will reach a staggering figure.

Mayor Black called a meeting of citizens at the city hall at noon to organize the relief work. In the meantime the "dead line" around the flood area was extended a quarter of a mile.

All of the army field kitchens have been put into service throughout the city by Major General Hines.

The scene when the waters lowered this morning beggared description. The business section stood a mass of water and mud-soaked wreckage. Merchants had but little time to remove stocks and hundreds of stores were filled with water which reached to the upper shelves. Streets were littered with debris. On one street corner three automobiles were stacked on top of each other, partly jammed into a plate glass window.

On another street the force of the water completely tore up one entire block of pavement. All manner of merchandise was strewn in the streets, partly covered with mud and water.

Hospital is Spared

Baylor hospital, situated one block from the river, survived the flood, although many houses around it were swept away. No lives were lost in the hospital, it was reported.

Pathetic scenes marked the terror of the night. One mother rushed into the Elks' club for shelter and sobbed in anguish that her little child had been left behind. Her home was entirely destroyed.

A United States soldier tried to swim across the street to rescue a woman trapped in a house which was about to collapse. He was dashed against an apartment building but managed to cling to a telephone pole.

ONE AD WORKER

Mrs. Mary Boettler, 313 West Broadway has become an enthusiastic booster for Press classified ads. A recent ad she inserted in our columns brought immediate and more than gratifying results.

Automobile Salesman Is Found Handcuffed and Slain in a Garage—Companion's Body Mutilated and Found in Desplines River—Suspect Held

CHICAGO, Sept. 10.—Chicago's "handcuff murder mystery" became a puzzling double murder this afternoon when the body of Carl Ausmus, an automobile salesman, was found in a garage on West Lake street. Ausmus was the companion of Bernard J. Daugherty, Packard automobile salesman, whose body was found handcuffed and mutilated in the Desplines River yesterday.

Harvey W. Church, suspected slayer of Daugherty and Ausmus, was expected here late today, following his arrest at Adams, Wis.

Findings of the body of Ausmus in a garage strengthened the police theory that he and Daugherty were the victims of automobile thieves.

Church was arrested at Adams, Wis., when he drove into the town, accompanied by his mother, in a Packard automobile which he is said to have purchased from Daugherty.

The arrest of Church was ordered after the police had obtained evidence that Daugherty was slain in the basement of Church's home. The blood-stained hats of Daugherty and Adams were found together there, together with a bloody baseball bat, a bloody hammer and blood-stained news-

papers and clothing. Each of these hats bore the initials of its missing owner.

Church is declared to have admitted purchasing the car which he drove at the time of his arrest from Daugherty and a man he did not know, but who is said to have been Ausmus. He had in his possession a receipt given by Daugherty for \$5,400, the purchase price of the car.

Police were baffled today in a maze of theory as to the motive for the slaying of Daugherty and probably Ausmus also, and the method in which the deed was consummated. Church is a small man of rather slight physique, while Daugherty was a powerful man, a former college athlete. It is considered almost impossible that Church could have slain Daugherty and Ausmus single-handed with only blunt tools for weapons.

The police are inclined to think that the slayer had accomplices. This theory was partly substantiated by a statement by Mrs. Bertha Germer, who occupied the second floor of the house where Church lived, that she had seen Church and two other men drive up in front of the house in an automobile Thursday afternoon.

HENRY NICOLAUS, A JAPAN OUTLINES THE VALLEY PIONEER, DIES SUDDENLY CONDITIONS OF WITHDRAWAL

News of Death Received by Family From Yellowstone Park This Morning

News of the sudden death in Yellowstone Park of Henry Nicolaus, who lived at 357 West Doran street, this city, was received by his family this morning, but no particulars were given. The body will be sent to Glendale and funeral arrangements will be made later.

Mr. Nicolaus came to California in 1871 and soon after located in the San Fernando Valley. He was one of the pioneers of this section and did a great deal to help develop the valley, where he farmed for years a tract of 2500 acres, a part of which is now the site of the city of Burbank.

He leaves a wife and two sons, Fred A. and Roy J. Nicolaus. He was 74 years of age and had been a resident of Glendale for four years.

The circumstances of his death are peculiarly hard because he left here alone last Monday morning to go by train to the point where he could enter the valley on one of the public stages.

JOHNSTON ANXIOUS TO WIN BIG TENNIS TOURNAMENT

By JACK VEIOCK
I. N. S. Sports Editor

PHILADELPHIA, Sept. 10.—"Looks like the greatest tournament we have ever had. Competition is going to be red hot and the international flavor to it helps a lot. I'd surely like to win it."

Billy Johnston of San Francisco, twice national champion and the outstanding star of this year's victorious Davis Cup team, was speaking.

"You know I've got two legs on the championship cup," Johnston continued, "and a victory this year would give it to me. But the tourney is only started and, as I said, it's going to be a hot one."

Johnston denied that he intends to retire if he wins the title and the cup this year.

By DUKE N. PARRY
I. N. S. Staff Correspondent

TOKIO, Sept. 9.—(Delayed)—Japan has sent a note to China outlining the basis and conditions upon which Japan will withdraw from the Shantung peninsula and the Chinese government at Peking now has the communication under consideration, it was stated today in authoritative quarters.

The Japanese government also has sent notes to the United States and Great Britain explaining the terms upon which Japan promised to leave the Shantung peninsula.

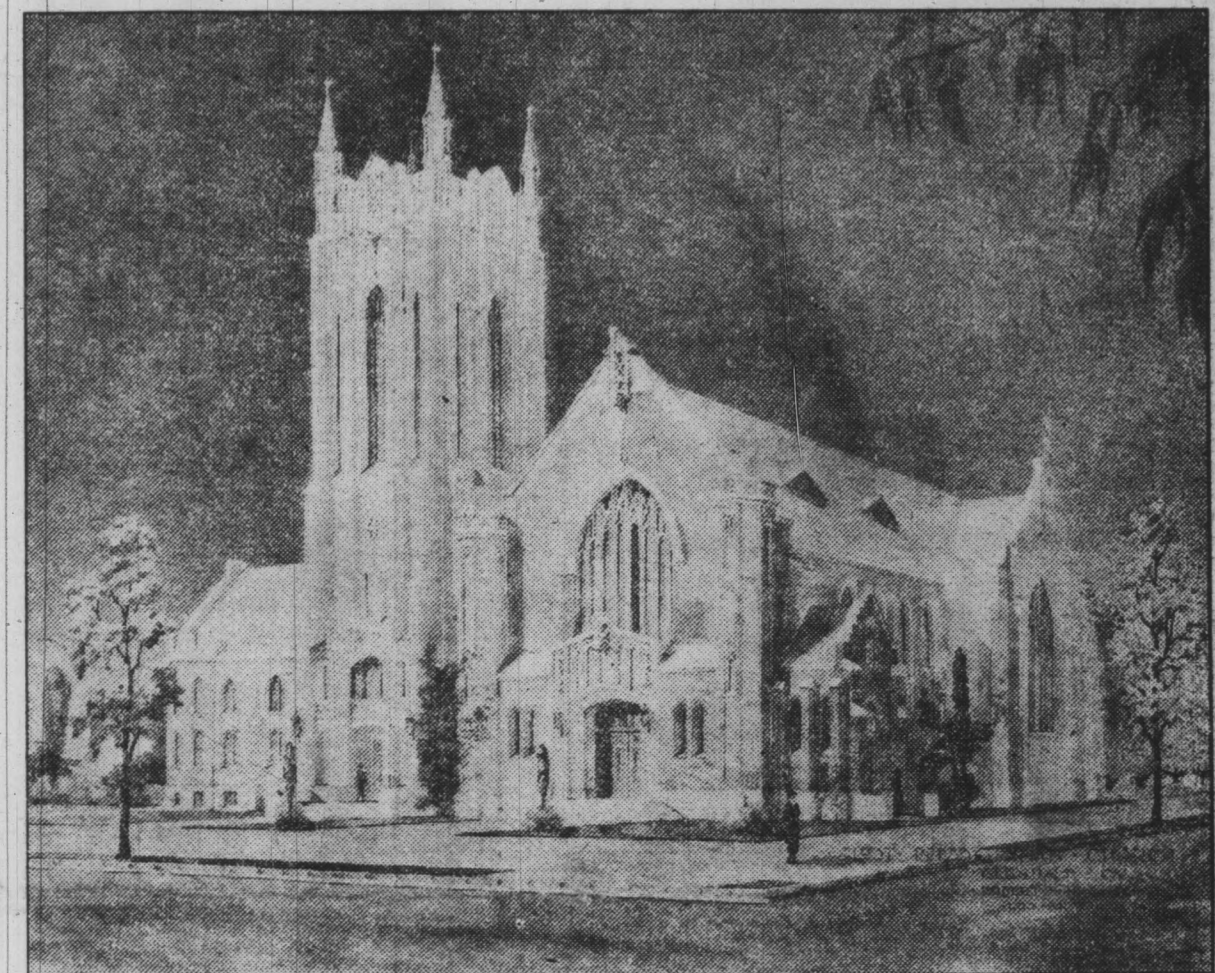

Despite protests from a section of the public the Japanese government is going ahead with its efforts to settle the Yap Island, Shantung and Siberian issues before the disarmament and far east conference opens in Washington in November. Those who are opposed to a preliminary agreement contend that all negotiations should be left to President Harding's conference, when all the great powers of the world will be represented.

The cabinet's choice as leader of the Japanese delegation to the Washington conference has not been revealed, even if there has been a definite selection. In the opinion of many the Japanese delegation should be headed by Admiral Kato, Japanese minister of marine. It is understood that the real choice lies between Admiral Kato and Count Uchida, the foreign minister.

VERDUGO CANYON SEWER CONTRACT IS AWARDED

At a special meeting of the City Council, held yesterday afternoon at 4 o'clock, the contract for the laying of sewer pipes in Municipal Improvement District No. 3, or Verdugo Canyon, was awarded to Peter S. Tomich. The contract calls for the use of vitrified clay pipe and the price is \$20,808. Work on the laying of the pipe will start at once as the contractor intends to finish the work before the fall rains start.

Plans of Architect To Be Given Formal Approval by Church as a Whole at Meeting Wednesday—Handsome New Edifice To Cost \$150,000—Will Include an Auditorium Seating 1400 and Accommodations for 1000 in School

GLENDALÉ PRESBYTERIAN CHURCH, AS IT WILL LOOK WHEN COMPLETED

A meeting of the congregation of the Glendale Presbyterian Church has been called by the joint church boards for next Wednesday evening, following the prayer service, to make the final decision in regard to building the proposed new \$150,000 church at the northwest corner of Harvard and Logan streets.

The plans of Architect Robert H. Orr, revised according to suggestions from members of the church boards and societies, have been accepted by the building committee, and their reproduction in brick and mortar await only the decision of the Church as a whole.

The plans call for an auditorium seating 1400, a Sunday School annex with accommodations for 1000, a banquet hall in which 600 persons can be seated, with a fully equipped kitchen in connection. This hall will be under the main auditorium and on this floor of the building will also be accommodated the Junior department, the primary, beginners' and cradle-roll departments, and there will also be adult classrooms and a ladies' parlor.

On the second floor, provision will be made for the intermediate department, for the pastor's study and for two large classrooms.

The tower, which will be 102 feet high, will be constructed with a view to installing therein a chime of bells.

There is no reason to doubt that the congregation will vote unanimously for work to begin on this new home for the rapidly growing Glendale Presbyterian Church, which has a membership of 1000 and a Sunday School enrollment of 750.

ARMS CONFERENCE PROGRAM OUTLINED

WASHINGTON, Sept. 10.—The United States has made a number of tentative proposals concerning the program to be followed at the coming November conference on limitation of armament and Far Eastern affairs, and these are now being considered by the invited powers, it was disclosed at the State Department today.

The nature of the suggestions was not revealed, but it was stated officially that "satisfactory progress is being made in the working out of the agenda."

FARM HOUSE PARTY THOUSANDS GREET IS HELD UP BY MASKED MEN CHARLEY CHAPLIN IN LONDON

OAKLAND, Sept. 10.—A dragnet has been spread in Alameda county and surrounding districts today for the six masked bandits who last night held up and robbed 40 guests and entertainers at the Daisy Farm in Hayward, of \$3000 in cash and jewelry.

The robbery was one of the most daring ever staged in this vicinity. The guests at the fashionable inn were at the height of a jolly dance and banquet when the bandit sextet entered and commanded members of the party to kneel on the floor with hands above their heads. Men, women and even children were forced to obey the command at the point of revolvers.

When one of the entertainers and a guest attempted to flee, they were brought back by two shots fired into the ceiling. Clyde Cooper, piano player, escaped and informed Constable A. J. La Cunha, who hurried to the scene just in time to see the bandits fleeing. A fusillade of shots was sent in their direction but none took effect.

PORT OF SPAIN SWEEP BY STORM

NEW ORLEANS, La., Sept. 10.—Weather bureau officials announced today that a tropical disturbance is central in the Caribbean sea south of Haiti, moving west-northwest and increasing in intensity. Vessels have been warned to exercise caution in the Caribbean sea during the next 24 hours and in the western Caribbean, especially, Sunday.

Reports reaching here by wireless to steamship companies said considerable damage had been done at Port of Spain, where two persons were killed and more than \$200,000 damage done in the harbor. Other points reported severe damage.

LONDON, Sept. 10.—Charlie Chaplin, met by the best audience he ever faced, arrived at Waterloo station today. Thousands of men, women and children surged forward attempting to embrace the comedian and shake him by the hand. There were shouts of "Hello, Charlie," and "Don't throw any pies."

Charlie was amazed, although he had received an ovation at Cherbourg when the liner Olympic touched at that port, which gave him a foretaste of what to expect in England—his native land.

Charlie stood in the doorway of the railway car and smiled at his English admirers as they surged around him with shouts and cries of adulation. Then his emotion overcame him and he wept.

Eventually a dozen policemen rescued the comedian from a crush which rivalled anything ever seen on the screen. The policemen picked Charlie up and bore him on their shoulders through the crowd, while the noise was redoubled and Charlie waved his hat.

WOODSMEN AFTER GARDNER
TACOMA, Sept. 10.—A more aggressive hunt for Roy Gardner, fugitive from McNeil's Island Federal prison, was started today by expert woodsmen, who were called in by Warden Thomas Maloney to help in the search. The attempt which was made to search for the desperado with an airplane late yesterday, was abandoned because the pilot discovered it would be impossible to locate Gardner from the air, due to the dense underbrush.

SERVICE STATION OPENS ON MONDAY

An automobile wash rack and service station is just being started at 109 West Wilson avenue by F. E. Litzenberg. While Mr. Litzenberg expects to be open for business Saturday or Sunday, he announces that the formal opening of his establishment will not take place until Monday. At this place cars will be washed, polished, simonized and greased, and motors will be sprayed. Machinery is being installed that will make this establishment one of the finest of its kind in this section of the country. In his cleaning station Mr. Litzenberg will make a specialty of caring for business men's cars. The plan he has adopted will enable the Glendale merchant or professional man to leave his car in the evening. When he calls for it the following morning it will have been "all slicked up," and ready to go. Mr. Litzenberg states also that he will take all responsibility for valuables left in machines at his establishment.

Mr. Litzenberg has brought his family to Glendale to live. He likes the town, the people and the climate. He has purchased a home at 344 Myrtle street, where he and his family are living at this time. He is a booster for Glendale and is anxious to see it grow in every line.

So. Cal. Auto Club Is Inspecting All Roads

In preparation for what is believed will be the heaviest fall motor travel Southern California has ever experienced, the touring bureau of the Auto Club of Southern California has just dispatched an inspection car to Salt Lake City to secure the latest road dope on all way points.

Yesterday marked the completion of inspection tours covering the San Jacinto mountains, San Diego, Riverside, San Bernardino, Orange, Los Angeles, Ventura, Santa Barbara, San Luis Obispo and Monterey counties.

Fall Rush of Tourists

According to the club's report, touring conditions for the fall rush are excellent in the majority of instances on the county highways. Conveniences for securing gasoline, oil and service were never better enroute, it is also pointed out.

The north wall of the Grand Canyon and Zion and Bryce's Canyons, will be included in the Salt Lake inspection tour over which the car left

this part of the state yesterday. It will cover 3,700 miles in securing road information to be used by local motorists.

Interest also centers in what will be discovered regarding the route conditions through Westgard Pass and Tonopah. Montgomery Pass will likewise be inspected.

89,000 Miles Covered

To date this year, Auto Club cars have covered 89,000 miles in securing road information, which has been used by Southern California auto owners in making vacation and transcontinental tours, thus establishing a record for service among the automobile clubs of the United States.

There have been 142 cars passing toward California daily over the Santa Fe Trail since May 1, according to a check kept at the Topock bridge over the Colorado river at the California-Arizona boundary line. Recent storms, however, have caused a slight falling off in this number says the club.

Edsel B. Ford Gives Reason For Price Cut

Mr. Edsel B. Ford, President of the Ford Motor Company, makes the following announcement:

"We are making another reduction in the price of Ford cars and the Ford truck, effective September 2nd, 1921. The new prices average \$70.00 under former prices, and are the lowest at which Ford cars and trucks have ever been sold. List prices, F.O.B. Detroit are now as follows:

	New Price	Old Price	Am't of Reduction
Chassis	\$295	\$345	\$50
Runabout	325	370	45
Touring Car	355	415	60
Truck	445	495	50
Coupe	595	695	100
Sedan	660	760	100

"This is the third price cut during the past twelve months. On September 22, 1920, the price of the Ford touring car was reduced from \$575 to \$440; June 7th to \$415 and now to \$355, making total reductions in this type of \$220, or 38 per cent. The same proportionate reductions have been made in all other types. One year ago the price of the Ford Sedan was \$975; today it lists at \$660, with the same equipment.

"We are taking advantage of every known economy in the manufacture

of our products in order that we may give them to the public at the lowest possible price, and by doing that, we feel that we are doing the one big thing that will help this country into more prosperous times. People are interested in prices, and are buying when prices are right.

The production of Ford cars and trucks for August again broke all previous high records with the total reaching 117,696. This is the fourth consecutive month in which our output has gone over the hundred thousand mark, the total for the four months being 463,074, which has gone a long way in making possible the present reductions. June, this year, with an output of 117,247 was the previous record month.

"One noteworthy feature of our sales is the increased demand for Ford trucks and cars for salemen. This class of commercial business has been gradually increasing the past sixty days and we interpret it as a very good sign of improvement in general business.

"No reductions has been made in the price of the Fordson tractor, and none is contemplated."

SAN GABRIEL VALLEY TRADES HOLD MEETING

The regular meeting of the San Gabriel Valley Auto Trades Association was held at the Ford Agency on Colorado street Thursday evening.

The session was very well attended. There was a delegation present consisting of about 15 automobile men, from Pasadena, Alhambra and San Gabriel, while 12 of the Glendale branch of the association were present. In addition to these, there were a number of prospective members, several of whom have joined the organization since the meeting.

Mr. Graff, of the firm of Graff & Fountain, Pasadena, who is vice-presi-

dent of the organization in Pasadena, had charge of the meeting. He was assisted by Max Green, Oakland distributor in the San Fernando Valley.

While the interests of every branch of the automobile industry were discussed, some matters of vital concern to the garage and repair men's branch was transacted.

The local members of the tiremen's craft, a part of the association, met at the Hooper Service Station on Wednesday night. Plans for the work of the Glendale branch of this craft were discussed.

Max Green, who is the Glendale vice-president of the San Gabriel Valley Auto Trades Association, says he is much encouraged over the way applications for membership to the organization are coming in. The auto men of this city are getting right in line, he says, and the prospects for the future are bright.

MONTHLY REPORT OF HEALTH DEPARTMENT

Sanitary Inspector P. G. Wells made the following report to Dr. J. B. Eckles, Health Officer covering his work for the month of August:

Complaints Investigated

Garbage, 12; Rubbish, 11; open vaults, 4; suspicious dogs, 4; milk (sample taken), 1.

Inspection (Regular)

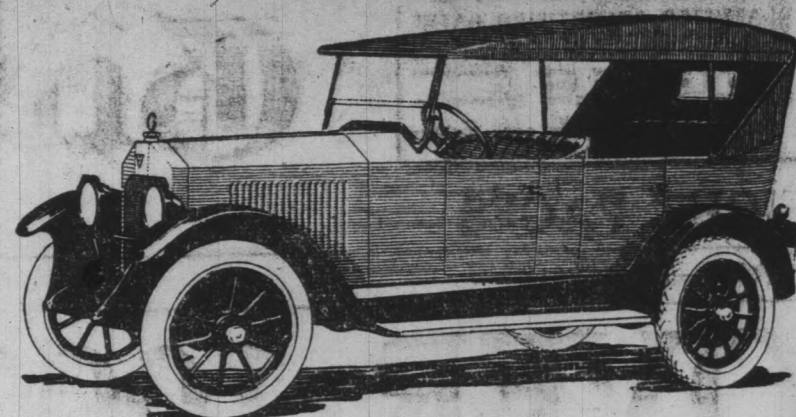

Meat markets, restaurants, bakeries, soda fountains, groceries, candy factories, fruit stands, alleys, total, 142.

Notification to discontinue unsanitary condition, for changes and repairs, 73; written notices, 6.

Miscellaneous

Houses fumigated, 2; quarantines released, 2; trip to laboratory (a water sample), 1; investigation of persons bitten by suspicious dogs, 8; dogs killed, 2; specimens sent to State Laboratory, 2; people under State treatment, 7; dogs under quarantine, 1; special investigation of fruit stands, 6; notice to install proper sanitary plumbing, 1; public health calls, 3.

Big buyers reached for a small cost in the Press advertising columns.

When you think of Velie you naturally think of quality and satisfaction

YOU naturally place the Velie on a plane above the ordinary—because Quality and Velie are one in the minds of the motoring public. Velie is invariably compared with cars costing hundreds more. For over a decade Velie has built the best car that can possibly be produced in its class.

You have noticed that newspapers and magazines constantly give prominence to Velie victories. Velie with best score in an Economy Run—Velie leader in a Mountain Climb—Velie winner in Style Shows.

Recently all motordom was startled and amazed by the news that a Velie Six had gone down and up the Grand Canyon with a 1600-pound load, under its own power. A marvelous feat; daringly accomplished.

You may never need this supreme power, or this stamina, but it is a satisfying thought that your Velie will instantly respond to your most trying demand. There is a Velie that fulfills your ideal as your first thoughts to Winter needs—a comfortable Sedan, a California top, a cozy Coupe, or a Touring Car with weather-tight curtains.

Velie Glendale Motors

Eight body styles, open and closed; two sizes of chassis—both six-cylinder. Every model at a price that challenges comparison.

"SOME DAY YOU WILL DRIVE A VELIE"

Chaffee's Anniversary Sale---Sept. 10th to 30th

Do You Ever Stop and Think What Does Your Battery Do for You?

It cranks your engine, saving your strength, your disposition and, perhaps, a broken arm.

When your engine starts it provides the spark, so necessary to make it run.

It lights your road, making night driving as safe and comfortable as by day.

It sounds your horn, keeping your road clear, and is ready and waiting to do many other things for your comfort, even to warming your hands or lighting your cigar.

And all that it asks in return for all this is a drink—not the half-dollar kind, but just plain, pure water, that costs you nothing—and yet so many of us forget and neglect this one little thing.

THIS IS OUR JOB—not only to provide for your battery's needs, free of charge, but to KEEP YOU FROM FORGETTING, and is but one of the new ideas of WESTINGHOUSE SERVICE. Our other ideas are just as good.

S. L. Gillan Completes Transcontinental Tour

S. L. Gillan, of 203 West Maple street, Glendale, California, has recently completed a transcontinental tour with his family, according to Jesse E. Smith, Glendale authorized Ford dealer, that will be of interest to all Ford owners.

The trip took exactly two months from the time the party left their home in Washington D. C., until they reached their new home in Glendale.

Mr. Gillan, his wife and four children made the trip in a Ford Sedan, camping 37 nights on the way. The four children slept in the car and he and his wife slept in a tent, on an army cot. They did not stop at hotels at all.

Via Old National Road

The family of six came out to California via the Old National Road, which is the first road ever constructed into the interior. The Old Cumberland Trail was followed from Baltimore to Indianapolis. The party stopped in Chicago for 10 days and Minneapolis for 2 weeks.

From Minneapolis to Fargo, North Dakota, they travelled over the Reid Trail, through North Dakota, by Yellowstone Trail to eastern Montana and Yellowstone National Park, and spent five days there.

From there they drove to Boulder County, to Helena, through Priest Pass and to Missoula, then over Bitter Root mountain to the Coeur d'Alene section of Idaho.

From there their trail lead to Spo-

kane and through Oregon, and via the Columbia River Highway, to Portland, then from Portland down the coast to Los Angeles and Glendale.

Delayed Only Eight Hours

The party was only delayed eight hours for repairs during the entire 5603 miles. Once for rear axle trouble, for three and a half hours, another time for bearing connecting rod, an hour and a half, and for a broken spring, three hours.

Firestone and Fiske tires were used and blow outs were few and far between. Only \$93.45 was spent on tires during the entire trip. The total weight of the car with six passengers and luggage was 3100 pounds and from their weight it was remarkable that only 286 gallons of gas and 102 quarts of oil were used. Twenty miles to the gallon of gas was the average and 55 miles to the quart of oil.

Minor Repairs

The cost of all repairs, that is the three broken parts mentioned, was \$59.90.

In the east camping sites were rare and around Chicago, an actual novelty. However, farther west better and better camping grounds were found, California providing the best of all.

"If you want to drive your family back east, do it cheaply and enjoy the trip immensely, buy a Ford Sedan," says Mr. Gillan.

WHO WANTS TO BE A PEDESTRIAN?

An article clipped from a Yokahama newspaper and sent to J. V. St. Clair of Jack's Velie Auto Service, by his sister in Japan, follows: It may be hard to take but this notation accompanied it. "This is a sample of what we get in the paper here, and it is not meant to be funny."

Rules for Pedestrians

1. Pedestrians crossing streets at night shall wear a white light in front and red light in the rear.
2. Before turning to the right or left they shall give three short blasts on a horn at least three inches in diameter.
3. When an inexperienced truck driver is made nervous by a pedestrian, he shall indicate the same, and the pedestrian shall hide behind a tree until the automobile has passed.
4. Pedestrians shall not carry in their pockets any sharp instrument which may cut tires.
5. In dodging trucks, pedestrians shall not run more than seven miles an hour.
6. Pedestrians must register at the beginning of each year and pay a license fee of \$5.00 for the privilege of living. There shall be no rebate if they do not live the entire year.

Let the Press advertising columns solve your problems.

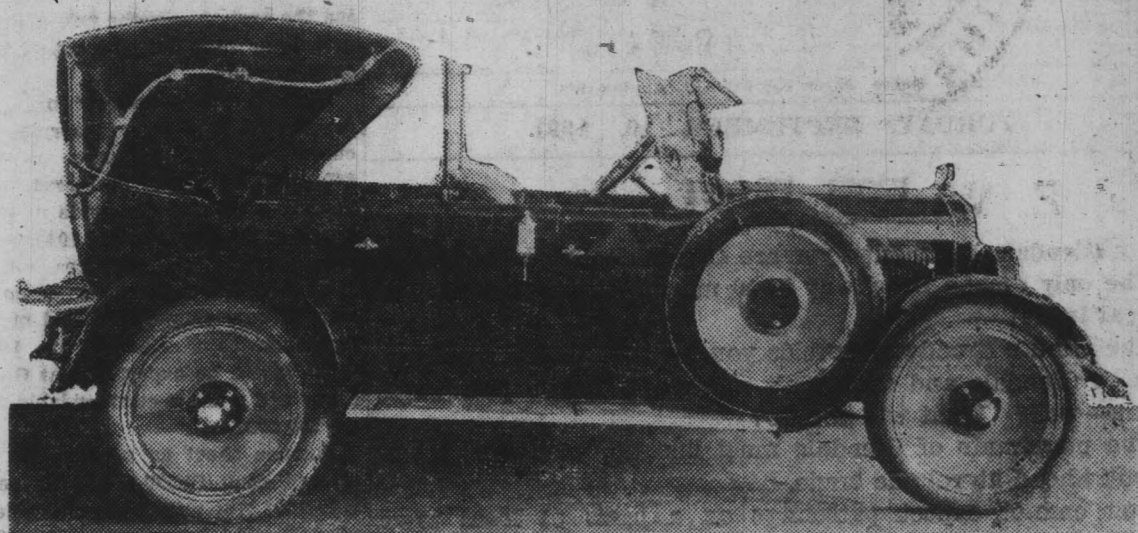

AUGUST REPORT OF SANITARY INSPECTOR

Sanitary Inspector H. W. Hollenbeck reported to the city managers that in addition to inspecting all fruit and soft drink stands along the streets of Glendale and finding them in good condition he had the following report to make for the month of August:

- Messages received, 123; water, 3; garbage, 40; sewers or cesspools, 29.
- Messages investigated, 123; water, 3; garbage, 40; sewers or cesspools, 29.
- Notice to abate nuisance, 10; inspections, 10; nuisances abated, 6.
- Samples of water taken, 59; for bacterial count, 59; for chemical analysis, 4.

Blood tests are now suggested as a means of finding out whether people are engaged in work suited to their health and temperament.

SHERIDAN

The Car Complete

Investigation shows the SHERIDAN to be a car so complete in every essential detail, of such abundant power, so sound mechanically and of such refinement as to give the owner the constant, satisfying service to which his investment entitles him.

It will be a pleasure to you as well as us for you to inspect this "Car Complete." **MURPHY & MILLER, Distributors**

Advertising Rates Made Known On Application

SATURDAY, SEPTEMBER 10, 1921

EYES FRONT

Mr. Glendale Merchant—you are 40 minutes from Broadway! The only reason Broadway is 40 minutes from Glendale—is the local trade!

The minute Broadway outbids you for that trade, Broadway moves to Glendale and Glendale's market, Glendale patronage, and you—well? What will you do?

The merchants of Glendale must line up, with eyes front, and look ahead at volume trade.

You cannot expect patronage on a basis of local town patriotism.

Business is not conducted that way. You know it.

You can expect patronage on a local patriotic basis if you bid for it with the visioned purpose of getting all the business in Glendale, pricing your goods accordingly—taking a momentary loss, perhaps, in advertising your competition. You will receive the long-enduring life and prosperity of the popular, large-dealing, long-visioned tradesman.

Therefore we say again: Eyes front. Look long ahead, over the range, and count your trade by 25,000, not by the few hundred that are circling around the trade range right now. Then your trade corral will grow to be big enough and you will have established the Glendale market—and hold Broadway 40 miles from your prosperity and Glendale.

FAIR OF CATHOLICS MORTGAGE BURNING IS SCHEDULED FOR EARLY OCTOBER BY CENTRAL AVE. METHODISTS

On Thursday, Friday and Saturday, October 6, 7 and 8, the Holy Family parish of Glendale will put on a pre-holiday bazaar. Rev. James S. O'Neill, who has been the faithful leader of this parish for 15 years, is wrapped up heart and soul in the success of this venture.

The new church building at the corner of Elk and Louise streets, will be used for the bazaar. This is an opportunity to get acquainted with the new church of Glendale, as well as to get an idea of what a wonderful edifice Glendale has erected. As yet the building has not been consecrated as a church, therefore the reason for its use for a bazaar.

Elaborate arrangements are under way and nothing is being left undone to make this a grand social and financial success. Mrs. J. O'Neill Farrell is executive chairman. The following booths have been decided upon and assigned to the following persons: Candy booth—Ladies of Y. L. I. Fancy table—Mrs. Zimmer. Country store—Mr. McLaughlin. Ladies' contest—Mrs. Clark. Men's contest—Miss McCovey. Entertainment—Miss Dorothy Vogel, Mr. Touhey and Mr. Albright. Children's booth—Mrs. Blumel. Cooked food—Mrs. Reid Huettis. Ice cream, coffee and sandwiches—Mrs. Bishop.

There are many wonderful ideas to be put over at this fair. The details for such have not yet been worked out. Handsome, valuable and useful prizes will be given away to the subscribers to the church fund. In return for the subscriptions will be given tickets with numbers on them. These prizes will go free to the persons fortunate enough to hold the lucky tickets. Suggestions, ideas and fun-producing amusements without number, are being worked out in detail.

The Holy Family Church bazaar is going to be a gala affair. Admittance will be free, no one is barred and everyone will be welcome.

GIRL SCOUTS ARE BACK FROM CAMP

Girl Scouts who left Glendale bright and early Wednesday morning under the leadership of Miss Gladys Sharpe returned Friday night at 6:30 all happy and all enthusiastic about the pleasures of their good camp outing at Camp Baldy.

They reached Camp Baldy between 3 and 4 o'clock and took possession of the four housekeeping tents reserved for them, dividing their troop into four squads that in turn prepared the meals which they ate together at one long table.

The troop flags were mounted over the camp and every morning scout ceremonies were observed. Considerable semaphoring was done, the new members of the troop mastering the code.

Thursday afternoon, leaving camp about 5 o'clock with a picnic lunch they hiked to Camp Estelle, a couple of miles higher, where they had supper and when darkness descended built a bonfire around which they gathered to sing scout songs, tell stories and toast marshmallows. By the time it had become embers they were ready for the return to camp in the moonlight.

The twenty scouts in the party

The most important event of the year for the members of the Central Avenue Methodist Church will take place next Sunday morning at 11 o'clock, when the mortgage which has been standing against the church ever since it was constructed a number of years ago, will be burned. The members of this church are rejoicing because pledges amounting to more than \$2000, which more than covers the mortgage, have been received.

About two years ago, when there was the sum of \$3700 standing against the church, an effort was made to clear off this debt. At that time about \$1900 was raised, leaving about \$2000 still against the church. Something like three weeks ago, Rev. V. Hunter Brink, pastor of the church, and the official board, were of the opinion that it was time to wipe away the entire debt that stood against the church. At a meeting of the congregation held at that time, seven working teams were selected and these, under the supervision of Rev. Brink, set about the work of raising this \$2000. Ever since that time, they have been working overtime with enthusiasm, the goal kept constantly in sight.

At a social given in the church last night, by the Epworth League, it was announced that the teams which had been struggling so valiantly had been successful—the entire \$2000 had been pledged. Everything is now ready for the mortgage-burning operation.

A special program is being prepared for Sunday morning. Dr. W. L. Y. Davis, superintendent of the Pasadena district, will deliver the principal address. A number of special selections are being arranged for this event.

The burning of this mortgage will be one of the bright spots in the history of this church.

Epworth League Meets

The members of the Epworth League of the church gave an entertainment and social at the church last night. This organization has a reputation for furnishing the finest kind of a time at all of their functions, so it was not surprising that more than 100 people turned out to this affair. Dr. Joseph Marple and Mr. Clark rendered vocal selections, and Rev. Brink, pastor of the church, delivered an address. The Epworth League has pledged \$65 toward paying off the mortgage on the church, and the silver offering that was taken last night resulted in \$25 of this amount being raised.

Following the program, all those present crossed to the social hall, where a social hour was enjoyed. Games were played and refreshments were served.

Platinum is shown to some extent and follows well on the heels of the early popularity of gray.

These are your advertising columns—use them.

STOCKMARKET

(Sugarman's Indicator Service, New York City)

GENERAL CIGAR—In these days when large numbers of corporations are reporting deficit after deficit, the showing made in General Cigar during the first six months ended June 30, last, is as refreshing as a cool breeze on a hot day.

General Cigar Company for first six months of 1921 reports surplus after charges and Federal taxes of \$1,036,640, equivalent after preferred and debenture preferred dividends to \$3.92 a share earned on the \$18,104,000 common stock. This compares with \$1,814,420 or \$8.19 a share earned on common in corresponding period of 1920. Inasmuch as dividends are \$6 per share it can be expected that General Cigar will make a commendable showing for 1921.

Balance sheet as of June 30, last, showed cash \$1,590,054; bills receivable \$607,319; accounts receivable \$3,182,247, and inventories \$15,419,099. Bills payable totalled \$5,150,000; accounts payable, \$1,529,890, and surplus amounted to \$7,871,668. Reports from tobacco trade tell us that in spite of falling consumption the outlook is now more promising than it has been in many weeks past. General Cigar has evidently weathered business depression, coming through in excellent financial shape. At prevailing prices the stock yields close to 11 per cent on the investment.

COLORADO FUEL & IRON—Company operates extensive steel works at Pueblo with annual capacity of 440,000 tons finished steel products, and also owns three iron mines, 25 coal mines, 800 coke ovens, together with undeveloped iron, coal, agricultural timber and fire-clay land.

Like all steel companies Colorado Fuel made poor showing for quarter ended June 30, 1921, displaying deficit after interest, taxes, sinking fund and depreciation of \$273,752, which compares with surplus before depreciation of \$505,517 in preceding quarter and \$1,161,571 in quarter ended June 30, 1920.

An interesting feature of the report is notable reduction in operating expenses for second quarter of 1920. Operating expenses were \$12,109,000, which compares with \$7,207,600 in second quarter of 1921. Unfortunately, the gross decreased from \$14,233,300 in second quarter of 1920 to \$7,390,000 for second quarter of 1921.

Six months surplus for period ended June, last, after preferred dividends is reported equivalent to 67 cents a share on the common as compared with \$4.15 a share in corresponding period of 1920.

Company has big speculative possibilities.

GREAT NORTHERN, PREFERRED—Investors who took Great Northern 7s in lieu of cash at maturity of the Northern Pacific-Great Northern Joint Burlington Collateral 6½; will be greatly interested in dividend policy of Great Northern, Preferred. Will dividends continue to be paid at present rate of \$7 per share per annum or will they be passed altogether?

We venture to express the opinion based on careful study that it would be good policy on part of Great Northern directors to cut dividends to at least \$4 per share per annum basis. Great Northern, Preferred, earned \$7.73 on the stock in 1920 as compared with \$8.87 a share in preceding year, but gross earnings in first six months of 1921 were only \$42,000,000 as compared with \$54,949,000 in corresponding period of 1920. Net operating revenue (Jan-June) was \$2,695,000 as compared with \$4,671,000 in corresponding period of 1920.

CITIES SERVICE—Earnings for 12 months ended July 31, 1920, do not make very good showing. The gross income during July was reported at \$698,671 as against \$2,117,919 a year ago. After deducting interest and preferred dividend charges there remained only small sum of \$60,705 compared with \$1,570,269 in July, 1920.

Production now said to be 33,000 barrels daily, and it is this high production, not only for CITIES SERVICE but throughout the industry generally, coupled with a falling off in demand, that is responsible for low price of crude oil, which is now selling for Mid-continent grade at \$1 per barrel compared with previous high price around \$3.50 per barrel. In this connection, domestic production during June last fell to 40,405,000 barrels as compared with 42,043,000 barrels for month of May. To make matters worse our imports from Mexico of crude oil jumped from 4,940,000 barrels in February, 1920 to 10,205,255 barrels for month of June, 1921. This last figure, however, is a material reduction from high peak of Mexico crude oil imports made during month of January last totaling 13,193,000 barrels. Here we have figures which indicate why oil stocks take such a long time to go up, like in so many other lines of endeavor. Purchases made now should reward the patience and courage of the investor.

NORTHERN PACIFIC—Company is scheduled for much publicity in the near future. In Wall Street is considerable speculation as to whether or not the road will pay its dividends, which is admittedly not now being

earned. During year 1920 income was equivalent to \$7.70 per share, or a very narrow margin over the seven per cent dividend requirements and compares with net of \$9.21 per share in 1919.

How has the road been doing this year as compared with similar period a year ago? It is well known that farmers throughout the Northwest have been hard hit by drastic slump at present in grain and live stock, and naturally business depression has had its effect on gross earnings. For first six months of 1921 gross revenue amounted to \$40,427,221, an appreciable reduction from gross in corresponding period of 1920, which was reported at \$51,027,769. Net operating revenue for first six months this year is reported at \$1,009,753, a sharp falling off from corresponding period of 1920 when a net operating revenue of \$7,377,600 was reported.

It has always been our contention that a railroad stock which was not earning its dividends should be sold. Whether or not the directors of Northern Pacific will continue dividend at present rate or cut or pass it, the future alone can disclose.

FAMOUS PLAYERS—Wall Street Bulls are relentless when they finally are able to turn the tables on the Bears. For weeks pessimistic propaganda has been circulated on Famous Players, but in spite of rumors the stock refused to go down. Then came report showing earnings in second quarter of \$6.54 per share, bringing the earnings for the first half of 1921 close to \$13 per share, well in excess of the \$8 per share per annum dividend basis. The Bears were further confounded with declaration of regular quarterly dividend of \$2 per share, payable October 1 to stock of record September 15.

The ease with which the Bulls might engineer an upward movement of spectacular proportions and similar to the 50-point advance in Studebaker, of recent memory, is evident when we note that Famous Players has outstanding only 208,403 shares of common stock, most of it reported closely held by moving picture magnates.

Financial conditions at end of 1920 were excellent, current assets totaling \$24,095,000 as compared with current liabilities of only \$14,267,000. The money-making possibilities in a 50-point advance in Famous Players are realized when we note that a purchase of as small an amount as 10 shares (margin required \$100) would in that event mean approximately a profit of \$500—greater or lesser amounts in proportion.

ANACONDA—When a house wife goes to market and is able to buy a well-known brand of breakfast food at two cents less than regular market price, does she hesitate what to do? Fortunately for the average man's pocket book women do not hesitate to take advantage of self-evident bargains. How about the investor? Does he step in and buy stock bargains when given the opportunity? For example, Anaconda Copper in 1920 sold as high as 66½. Admittedly, business was then much better than it is today. That is just the reason the stock sold so high. Today Anaconda is selling

around 34 or about 32 points below 1920 high levels. This is a "mark down" of almost 50 per cent. Why is it that when a stock is at its high peak investors buy it eagerly whereas when it is evidently on the bargain counter they refuse to purchase? Obviously, such persons do not make much money on the stock market. As small a sum as \$70 is sufficient margin to control 10 shares of Anaconda. A recovery of only 50 per cent of the decline would mean something like \$120 profit on a ten-share purchase, or \$1,200 on a hundred.

SOUTHERN PACIFIC—The June gross amounted to \$23,044,227 or slightly less than June gross in 1920. Net operating income, however, increased something like \$364,000 and stands at \$9,180,714 for the month. Net operating income for first six months of 1921 is \$13,359,419 as compared with \$8,796,959 the first six months of 1920. Increase in net operating income is highly gratifying, and makes holders of stock more than ever determined not to be shaken out by Bear drives that may be made against it.

STUDEBAKER—During quarter ended June 30, 1921, company reported net income after charges of \$4,270,547, equivalent after preferred dividends to \$6.88 a share on common stock. This compares with \$2,110,577 or \$3.22 a share on the common in preceding quarter and \$3,006,965 or \$4.71 a share in corresponding period of 1920. Studebaker is making money.

ERIE R. R.—Company reports June net operating income of \$91,459 compared with June, 1920, net operating deficit of \$2,055,058.

ATLANTIC COAST LINE—Company reports June net operating income of \$75,805 compared with 1920 June net operating deficit of \$1,194,645.

CHICAGO, INDIANAPOLIS & LOUISVILLE R. R.—Company reports net operating income for month of June of \$53,747 compared with net operating deficit corresponding month a year ago of \$48,537.

Real Estate Review

Residential Property Leads in Local Sales, While Many New Homes Are Planned—Increase of Building Since Beginning of September Is Phenomenal

By PAUL VISSMAN

Business in Glendale and particularly the real estate business is good. All classes of property, whether residential or business, are finding a ready market with residential showing a slight lead. While there are numerous homes recently built and many in the course of construction, there are still many prospective residents of this city that cannot make their home in Glendale at present because there are not sufficient houses to accommodate them.

According to the last United States census, taken in 1920, Glendale exceeded any other city in the United States, as regards growth in population. Since the taking of the census the population of this city has increased until at present it numbers almost 22,000, according to officials of the city.

While the population of the city has been increasing the amount of building carried on in the city has taken a big jump. Last year the building permits for the entire year totaled \$3,137,264 a considerable increase over the previous year. This year the three million mark has already been passed.

The total permits issued for the year, up to noon yesterday totaled \$2,991,569, and for the month showed a total of \$101,400. For August, the building permits were \$576,545.

The increase in building permits issued this year over those last year, shows the relative increased demand for property in this city and as real estate values are, like any other com-

modity, based on the law of supply and demand, the increasing demand for property in this city has increased the valuation placed on all city property. There is no time to buy real estate like the present, for Glendale property values will never decrease.

Assessed valuation of Glendale property for the present fiscal year is \$13,693,824, an increase of \$4,300,299 over last fiscal year, which showed an assessed valuation of \$9,393,525, demonstrating the fact that Glendale property has increased in value and will continue to increase.

BUILDING PERMITS

Building permits have been issued to the following since noon yesterday, bringing the September total to \$111,000, and that for 1921 to \$3,006,469:

WHERE THEY BITE

For the information of the many local fishermen who contemplate spending their week-end fishing, the GLENDALE DAILY PRESS is offering a chart showing where the fish are biting the best and where to go to catch them. This chart has been prepared by Gur Wangeheim of Neale & Gregg's sporting goods department, and is authentic. LONG BEACH—Mackerel, herring and a few sea trout. SANTA MONICA—Heaviest run of mackerel this season, yellowfin and a few smelt. PLAYA DEL REY—Good mackerel fishing, with a few yellowfin, jack smelt and croakers. MANHATTAN BEACH—Good mackerel run, a few jack smelt and yellowfin. REDONDO—Mackerel fishing very good. Halibut, jack smelt, a few yellowfin and corbina are also running. HERMOSA BEACH—Mackerel fishing very good. Halibut and corbina are also running.

HERE IN GLENDALE

The following moves were made in Glendale since noon yesterday, as recorded by the public service department:

Mrs. Dahlgren from 613 North Brand; Mr. Hensley from 627 East Palmer (rear); Robert Jensen, 227 North Kenwood to Los Angeles; H. A. Goldsberry from 210 East Wilson; Harry E. White, Inc., 712 East Broadway to San Fernando road and Brand boulevard; Mr. Widmark from 1006 East Lomita; J. Sebel to 216 South Louise; S. A. George to 632½ East Broadway; Harry Switzer to 207½ Hawthorne; A. P. Gelman to 1830 Gardena; Elmer Gilmore to 739 East Lomita; William Brown to 214½ East Broadway; Mrs. Ryan to 316 North Maryland; K. C. Fisher to 748 South Brand; J. W. Walton to 206 East Wilson; C. C. Crandall to 411 North Isabel and Mrs. R. E. Murray to 419 East Colorado.

MAJOR KIRK EXONERATED BY COURT OF INQUIRY

The complete exoneration of Major Ernest E. Kirk of all reflections upon his method in connection with recruiting is signified in the general order issued from the Adjutant General's office arriving today, containing the comment of the Court of Inquiry. The order follows:

STATE OF CALIFORNIA
ADJUTANT GENERAL'S OFFICE
SACRAMENTO

September 1, 1921

1. The court of inquiry of which Major Frank S. Hutton, Judge Advocate General's Department, California National Guard, is president, appointed in Paragraph 3, Special Orders, No. 65, The Adjutant General's Office, August 4, 1921, to inquire into, report on, and render an opinion on the merits of charges made by certain citizens of Los Angeles, Cal., reflecting upon the method adopted by Major Ernest E. Kirk, Infantry, Cal-

ifornia National Guard, in connection with the recruitment under his supervision for organizations of the California National Guard in Los Angeles and vicinity, has submitted its report, which concludes as follows:

"In our opinion, and which in our judgment is fully supported by the evidence, Major Kirk is an excellent officer and worthy citizen. The charges made are wholly unwarranted, not sustained and a rebash of ancient history instigated for selfish interests of persons undisclosed; and Major Kirk's political, economic, and social views are normal and safe.

"We recommend that Major Kirk be officially exonerated * * *

2. The recommendation of the court is approved and concurred in.

3. The court of inquiry is hereby dissolved.

By order of the Governor:

J. J. BORRELL,

The Adjutant General.

CAMPAIGN AGAINST WHARF RATS IS ON IN NEW YORK

(By International News Service)

NEW YORK, Sept. 10.—An army of a million rats, driven from their homes beneath the old wooden wharves of lower Manhattan by the advent of the concrete pier, has met its collective doom in the cold waters of the Hudson and East rivers.

A rat will soon be a rarity along Gotham's waterfront. Hordes of high and low-caste rodents from every land on earth have infested New York's seaway for decades. With the advance of modern construction health officials foresee the passing of the bubonic plague peril and the elimination of the most ignominious of disease carriers.

Pity the New York waterfront rat, homeless and friendless. Not that we would suggest a drive to relieve their increasing sorrows. But a tinge of pity would not be out of place in view of the old residence that the rat has enjoyed beneath the keyboard of Manhattan's shore-line. Eventually what is left of this breed will have lost social standing among the punier inland hordes that are satisfied to infest stables, old tenements and to frolic beneath kitchen floors.

Rats From Everywhere

The New York rat is different from his brethren. He is cosmopolitan to begin with. They have no Blue Book among them, it is true, but had they one it is certain many famous rats would be enrolled therein. Huge rodents from the aromatic wharves of far Sumatra, pirate giants from the Chelsea piers, quaint rats from San Francisco's picturesque waterfront, to which they came perhaps from far Ceylon or the dimly-lighted wharves of Shanghai. Rats from Java and Edinburgh, rats from Calcutta, Bombay, and Colon, more rats from Pernambuco and Stockholm—all these grace, or disgrace, the thousand alleys beneath the wooden Battery wharves.

But only one army of an estimated million rats has, so far permanently disbanded. Armies of many more millions of rodents remain to be vanquished by the builders of concrete piers. According to Health Commissioner Dr. Royal Copeland, the evacuation and eternal retreat of the waterfront rat is a necessity and an end to be brought about at the earliest possible date. For it is ascertained that the greatest potential peril to the lives of New York's seven million, and for that matter, the lives of all who dwell within the borders of the nation, is the peril of the great white plague. The germ of this terrible disease is borne by the rat flea.

Piers Harbor Disease

Inasmuch as Manhattan Island is entirely surrounded by piers, few of which are rodent free, Dr. Copeland's admonition is considered timely by many physicians.

The modern concrete pier, or rather the method of constructing the concrete pier, will be responsible for the passing of the dread carriers, according to Dock Commissioner Murray Hulbert. Rats reached their prospective homes beneath the floors of old-fashioned piers by way of X-shaped supports nailed to the wooden piles to keep them in place. These X supports are the stairways or runways of the rats, which jump overboard from the ships and swim a few feet under the piers to their future abodes. But a rat cannot climb a concrete pier, because X supports are not necessary between the concrete piles.

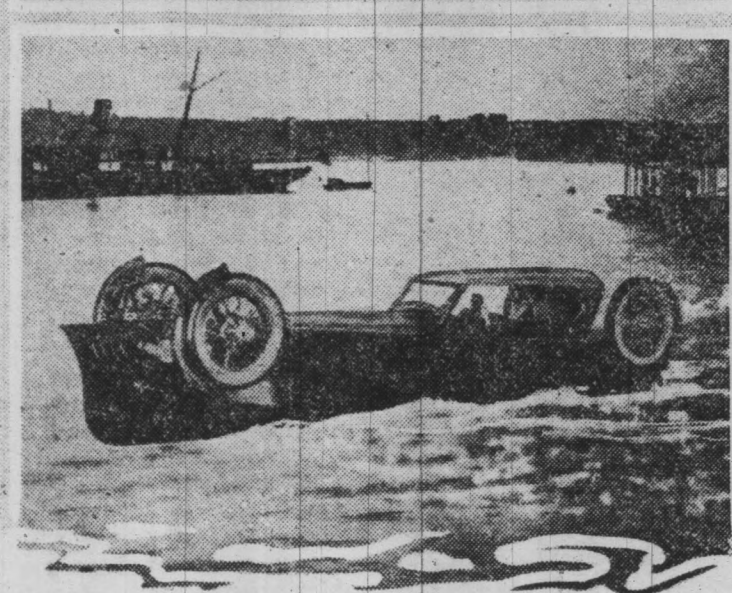

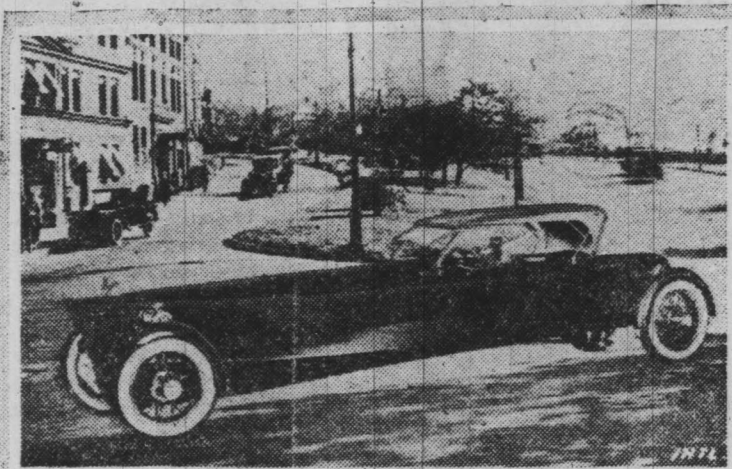

Modern pier experts declare that had the builders of the old wooden wharves deliberately planned to provide homes for the cosmopolitan rats and their prolific broods they couldn't have done better by the rats.

Wins World's Record For Airplane Altitude

Georges Kirsch has just landed. To say he has been "up in the air" is putting it mildly. Georges has just smashed the world's altitude record by rising six and one-half miles above the aerodrome at Bourget, France. The previous world's record was held by Major Rudolph Schroeder, U. S. A., who rose 36,202 feet over Dayton, O.

Yankee Invents Amphibious Auto

You don't have to stop when you come to a river if you happen to be touring in one of these amphibious motor cars. News that Europeans were working to produce a water-going automobile, was followed almost immediately by the announcement

that Paul Panketan, a New Yorker, had obtained letters of patent for an "auto boat." Panketan's invention is capable of 90 miles an hour on land and 35 miles an hour in water. It takes 15 seconds to make the graceful automobile a speedy power boat.

MEXICO BECOMING BOOZE PURVEYOR TO AMERICA

By LOUIS P. KIRBY
International News Service Staff
Correspondent

MEXICO CITY, Sept. 10.—While other revenue sources of the Mexican treasury have been dwindling because of the closing of mines, the bad crops, suspension of operations in the oil fields, John Barleycorn continues to be a pillar of the financial structure of the nation.

Mexico's income from taxes on alcoholic beverages is steadily increasing. During the past year the receipts were 15,000,000 pesos, but they will be much greater this year as there is now what might be called an "export" demand for beverages manufactured in Mexico.

The liquors are chiefly "exported" across the border, but without the knowledge of Mr. Harding or General Obregon. Bootleggers and smugglers handle tequila chiefly, because this fiery liquor is acceptable to American taste, in the absence of anything else, while mescal and pulque do not appeal to the thirsty across the border, except among the members of the Mexican colonies.

U. S. Market Is Supplied

As some of the border cities have large Mexican elements there is of course, some smuggling of mescal and pulque, but the real profit for the border runners is in tequila.

The prices obtained by bootleggers and other traffickers in "hooch" vary according to the geographical conditions. Tequila is lower at El Paso than in San Antonio, because the smuggler has only to wade across the river at El Paso to reach his market, while he must face the perils of a trip of 100 miles or so to get to San Antonio.

At El Paso a quart of tequila can be obtained easily for \$3, while the price is \$6 and \$7 a quart in San Antonio. In Mexico tequila made by distillers of reputation ranges in price from fifty to seventy-five cents a quart. But there are even cheaper kinds.

Some of the Mexican smugglers are as deft as magicians of vaudeville. A story is told of an American in a border city whose stock of beverages became exhausted. He drove in his motor car to the shop of a captain of the bootlegging industry.

"I want a bottle of tequila," he said. "You already have it," replied the bootlegger.

"You are wrong," protested the other. "I wouldn't be here if I had a quart of anything."

"Look under the cushion," returned the bootlegger.

A corner of the cushion was lifted. Underneath was a bottle of tequila. The smuggler had divined the visitor's wants and had thrust the bottle under the cushion so swiftly that not one of the two or three men in the car saw him do it.

Distilleries Are Enlarged

When he received payment he caused the money to disappear into his pocket with a swift motion which would have done credit to any magician of the stage.

When the United States lost its revenue of about \$800,000,000 a year from distillers and brewers, through the establishing of prohibition, there were weavers of figures who predicted that Mexico's income from beverages would increase enormously, with the possibility that the increase would be great enough to pay all of Mexico's debts, with a surplus for the financing of the country. This has not happened. It is a far cry from fifteen million pesos, or about \$7,500,000, to \$800,000,000. But there have been substantial gains. Old breweries and distilleries have been enlarged, and new plants have been built, giving the government greater returns from these sources than in the past.

While John Barleycorn's contribution to the Mexican treasury is important in this time of depression, it probably never will reach the proportions predicted by anti-prohibition propagandists.

Prohibition is Feared

Most of the alcoholic drinks in Mexico are made from plants which grow everywhere, almost like weeds. "Home brew" in this country is as old as the Aztecs. All of the rustics know how to make their own drinks, without troubling themselves about Internal Revenue stamps; and John Barleycorn's contribution to the treasury will increase only as far as the urban population of Mexico grows.

There is continued and strong agitation for prohibition, with a possibility that John Barleycorn's money may be rejected in Mexico as in the United States.

Some states, like Chihuahua, have taken definite steps toward prohibition, although in some cases the movements lack sincerity of purpose.

Sometimes the agitation is to serve a political purpose; sometimes to attract prohibition or anti-prohibition agents who have money to spend.

U. S. Money Is Misspent

Reformers in the United States are distributing much cash in Mexico, and this money very often passes into the hands of men of a singular sort.

Some fine corner lots and mortgages, at 12 per cent a year, have been acquired through the generosity of earnest old maid in the United States. In the files of every church organization and reform society interested in helping the Mexicans, it is said, are letters from worthies here who are willing to spend their money for them and spend it wisely.

MISS BROWN TO WED
Miss Viola Brown, of 102-A East Broadway, will be married Sunday next in the First Congregational church of Los Angeles, to L. C. Johnson, who is employed by a prominent business firm in the big city. Miss Brown, who is the daughter of Mrs. Alice Brown and sister of Eddie, has been a valued employee of the Telephone Company in Los Angeles, for nearly two years. The young couple will live for the present at 102-A East Broadway, in an apartment adjoining that of the bride's mother and brother.

NEW OUTLAW HORSE AWAITS PUNCHERS AT PENDLETON

PENDLETON, Sept. 10.—Pendleton is ready once again to stage that great out-door drama, the Round-Up, September 22, 23, and 24. The atmosphere of the "biggest little city in the world" is permeated with Round-Up spirit. Dignified citizens have donned the broad-brimmed hat of the cowboy and these, with the brilliant shirts, long haired chaps and riding boots worn by horsemen, give a festive air to the "Let 'er Buck" city.

Each year the show eclipses that of the year before and there is no doubt that the 1921 presentation will break all records. A galaxy of star performers, including the famous "Charles Irwin family" of 20 cowboys and cowgirls, as well as individual performers, among them Yak and Kitty Canutt, Frank McCarroll, Prairie Rose and Johnny Judd, will be here. Tom Mix, daredevil cowboy screen hero, and his company, will compete in events of track and arena. Snappy steers, fast relay strings and hot tempered buckers are ready for three big days. Thirty-five of the Round-Up's own string of horses are here and with the try-outs next week, some real sparks will fly.

Among the buckers is "Hotblood Sam," a new horse from Idaho, who has unceremoniously dispatched 16 consecutive would-be riders from his ever-moving hurricane deck and who will battle for supremacy with cowboy riders this year. Prizes in the various events are the greatest ever offered.

Excellent accommodations are promised. The show is purely a community affair and as such, Pendleton homes are thrown open to the thousands of visitors. The Round-Up association limits the price to \$2.50 for double beds and also regulates the price of meals, no profiteering being tolerated.

Scores of orders for seats have already been received and with the opening of the seat sale September 7, the Round-Up association will begin its work of meeting the great demand from all over the Northwest. The Journal Special will bring 300 visitors from Portland for the last two days, while a special train from Tacoma will bring 125 business men here for Thursday, "Tacoma Day" when "Let 'er Buck" and "Watch Tacoma Grow" will be synonymous.

Among the well known persons who will see the show will be Pauline Frederick, Bebe Daniels and Tom Mix, screen favorites; W. V. Woehike, editor of the Sunset Magazine, Verne H. Porter, managing editor of the Cosmopolitan, W. C. Kenney, vice president of the Great Northern, Carl R. Gray, president of the United Pacific, and Governor Ben W. Olcott.

HEADLIGHTS CAUSE CRASH

Glaring headlights were blamed for the collision last night of an automobile and two boys on a bicycle. C. E. Bean of Los Angeles reported to the police department that he was driving on Glendale boulevard between the Southern Pacific tracks and the bridge when he met a machine with such glaring headlights that he was blinded and collided with two boys riding a bicycle. The boys gave their names as Albert Leon Hicks, 12, and Floren Wesley O'Dair, 10, and their address as 1000 East Fifty-fourth street, Los Angeles.

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts
if Back Hurts or Bladder
Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but becomes weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lumps of lead, and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

WM. S. HART IS AT PALACE GRAND

Three of the most famous children of the screen appear in William S. Hart's latest Paramount picture, "The Whistle," now showing at the Palace Grand Theater. They are George Stone, who was the Belgian boy in "Till I Come Back to You," and who supported Mr. Hart in "The Poppy Girl's Husband," Richard Headrick, who was the "regular feller" in Mr. Hart's western picture, "The Toll Gate," and Will Jim Hatton, a juvenile of talent and excellent promise. Hatton has the part of Danny who, in the picture story is accidentally killed, and George Stone is seen as the stolen boy; Richard Headrick is the infant who is all but drowned in the river. This trio of juvenile talent cannot be beaten and they add much to the entertainment value of the photoplay. Myrtle Steadman is the leading woman.

CORNWELL BRINGS HOME THE FISH

Albert Cornwell of the hardware firm of Cornwell & Kelty, and L. D. Childers, an employee of the First National bank of Glendale journeyed over to Chatsworth reservoir in the wee hours of this morning, the object of their trip being a big black bass. They say there was nothing to it. They came home with 36 bass ranging in weight from 1-2 pound to a pound and a half.

C. E. FOLKS GO VISITING

On Thursday night, a number of Glendale Endeavorers attended the County Fellowship Social at the Emmanuel Presbyterian Church, Los Angeles.

In addition to the "The Whistle," the third episode of "Miracles of the Jungle" will be shown. This feature is getting better with each. As an added feature Henri Monnet will play "Dear Little Boy of Mine," on the Wurlitzer organ.

LATEST GROCER IN DRIVE OF CHAMBER OF COMMERCE IS BUSINESS GOOD

Julius Nussbaum Declares City Finest in World—Buys a Home—Is Booster

Julius Nussbaum, who, a short time ago, purchased the grocery establishment formerly operated by S. R. Bush & Son at 244 North Brand boulevard, says that, from every standpoint, Glendale is the finest city in the world, and he claims to have seen a great many municipalities. From a business standpoint he says that things are coming along in fine style and that he is expecting big things from the people of this place. From every other standpoint he says it would be absolutely impossible to beat this city.

Mr. Nussbaum has come to Glendale to stay. He has brought his family here and has purchased a beautiful home at 416 West Lexington drive and, although he has been in Glendale only four weeks, he has already become a member of the Chamber of Commerce. His example along this line could very well be followed by hundreds of the other residents of Glendale to very good effect.

Mr. Nussbaum and family came directly from New York, where for 20 years Mr. Nussbaum was in the wholesale and retail grocery business. His wholesale establishment "back there" was known as the Traders' Food Company of New York.

"While we were very fond of the Eastern part of the country we are already in love with Glendale," said Mr. Nussbaum this morning. "Your healthful climate and your perpetual sunshine, your excellent quality of citizens and your beautiful city are spoken of admirably the whole country over. We certainly have come here to stay. The folks of this place are treating us royally. We have already shown our interest in Glendale by joining the Chamber of Commerce and in assisting in other lines, and we hope the people here will reciprocate."

F. J. Krikke, who for several weeks has had charge of the No. 4 meat market, owned by C. Caswell, has taken over the market in the Nussbaum store. He promises the people of Glendale the very best of service and the finest quality of fresh meats obtainable. The prices will be right, Mr. Krikke says.

C. E. EXECUTIVES MEET

The Christian Endeavor Union on Tuesday night had a District Executive meeting at the home of Fern Peters, 209 North Orange street. The District Executives are composed of district officers and presidents of seventeen societies in the district.

Those present were Fern Peters, Francis Musser, Tirzah Snell, Carol Duncan and Mr. and Mrs. C. C. Stöler, all of Glendale.

Eagle Rock's representatives were Lowell Darnell, Woodbridge Johnson and Cyrus Galley. From Los Angeles came Luther Mills, Will Richards and Mr. and Mrs. Chas. Culver. Mr. Culver is president of the Los Angeles county union.

After the regular business meeting, Mr. Culver presented the Inter-Society Four Square Contest, which will probably be adopted by all societies in the district. It emphasizes these four things: Graded Christian Endeavor; loyalty to the church; religion in the home; personal stewardship of time, strength, money and ability.

After the adjournment, Miss Fern Peters, assisted by her mother, Mrs. J. E. Peters, served refreshments.

The Pacific Ocean has an area of about 55,000,000 square miles, which is equal to the entire land surface of the globe.

A wide variety of goods are advertised in the Press classified columns. Read them!

EASY TO DARKEN YOUR GRAY HAIR

You Can Bring Back Color and Luster With Sage Tea and Sulphur

When you darken your hair with Sage Tea and Sulphur, no one can tell, because it's done so naturally, so evenly. Preparing this mixture, though, at home is messy and troublesome. At little cost you can buy at any drug store the ready-to-use preparation, improved by the addition of other ingredients called "Wyeth's Sage and Sulphur Compound." You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time. By morning all gray hair disappears, and, after another application or two, your hair becomes beautifully darkened, glossy and luxuriant.

Gray, faded hair, though no disgrace, is a sign of old age, and as we all desire a youthful and attractive appearance, get busy at once with Wyeth's Sage and Sulphur Compound and look years younger.

Things continue to hum in connection with the membership drive of the Glendale Chamber of Commerce. The fact that yesterday was a holiday interfered to a certain extent with the work of the various committees, but the results reported demonstrate the fact that the workers are right on their toes and are plugging every minute.

Today will also probably be a trifle slow for the workers, but the chairman of the various committees are declaring: "Just wait until Monday." From what can be learned it seems as though Monday will be a day of unusual activity in this membership drive.

PAINTING OF TOPS KEEPS NEW FIRM WORKING HARD

After spending three weeks in getting their new plant under way, Cox & Johnson, auto painting and tops, of 122 West Colorado street, are now working overtime. Both of these gentlemen are old hands at their particular line of work, and are ready to give the public of Glendale the very best work at the most reasonable prices.

For a number of years before coming to Glendale, Hiram Cox was connected with the painting and enameling department of the Nash factory at Kenosha, Wis. He does everything in the auto painting line, and will doll up any car in any color.

Carl Johnson, who is a specialist in auto top building, upholstering and everything in that line, has complete charge of this end of the establishment. There is nothing along this particular line that Mr. Johnson cannot do. The class of work done by the firm is attested to by the fact that they are never permitted to enjoy an idle moment. They are always busy. The motorists in Glendale, they say, appreciate good work.

RELATIVES OF MRS. WOODS END VISIT

Mrs. C. G. Woods of Grand View avenue is reluctantly saying good-bye to children and grandchildren, who have been spending the summer with her. Today her daughter, Mrs. W. W. Simpson, and son, William, are leaving for their home in Pittsburgh. A son, William Woods, will accompany his sister as far as San Francisco, where they will spend a few days together, and his son, Charles Woods, will go on in company with his aunt to his home in New York. Charles Woods spent the winter with his grandmother and attended Glendale High.

OLD SETTLERS' OUTING

All residents of Glendale are invited to attend the annual picnic of the Old Settlers' Association to be held next Saturday in Echo Park, Los Angeles. Everyone is invited to attend, whether they are old residents of the state or just moved here, as length of residence will not prevent them from taking part in the sports and entertainment.

DOGS ATTACK GROTE

H. J. Grote made a report to the police department last night that as he was walking along Brand boulevard on his way home, he was attacked by two large Airedale dogs. Mr. Grote said that the dogs were very vicious, and when he attempted to escape they pursued him from Park avenue, where the attack was made, to Central avenue.

SNEAK THIEF ROBBERY

Tom Mullin, who lives in a Glendale hotel, reported to the police that some one had entered his room and stolen a suit of blue serge clothes. According to Mullin, the theft occurred some time between 8 p. m. Thursday and 1 p. m. Friday. Police are investigating in an attempt to locate the stolen suit.

MUTUAL BENEFIT CIRCLE

The Mutual Benefit Reading Circle will resume its weekly meetings beginning Wednesday, September 14, from 11 a. m. to 2 p. m., in the Juvenile room of the Public Library.

Any one interested in a course of reading along the lines of child development will be cordially welcomed. The reading will be from Elizabeth Harrington's "When Children Err." Mrs. A. A. Barton, is chairman.

The tusks of the African elephant sometimes weigh as much as a hundred pounds each and reach a length of eight or nine feet.

Sea vapor is not salty, the salt being left behind in the process of evaporation.

Will Entertain Prince On Visit to India

Although the news dispatches tell of serious rioting in India, there has been no cancellation of the trip which the Prince of Wales is to make to the Hindu peninsula. When he arrives, this beautiful matron, the Countess of Cromer, will be his chief hostess. Her husband will be chief of the Prince's personal staff.

FRANKLIN RECKFORD CAST FOR PERSIAN GARDEN ROLE

Glendale music lovers will be interested to know that Franklin Reckford is to have the tenor role in "The Persian Garden," to be given in a sylvan setting in beautiful Verdugo Woodlands September 17, under the auspices of the music section of the Tuesday Afternoon Club. He is one of the most promising young singers of the period, with a voice of rare quality, and the management feels it has been exceedingly fortunate in securing him.

Miss Eva Daniels, who is actively interested in promoting the affair, has had a note from Mrs. F. P. Newport expressing her great interest in it and promising to do everything in her power to make it a great success.

THE VELIE-GLENDALE MOTORS DISPOSE OF USED CARS

The Velie-Glendale Motors believe they stand in a unique position among automobile dealers today in having, during the past two weeks, disposed of every new and used car on hand.

This enterprising young firm, which recently bought out the business of C. A. Wishart & Son, has sold six used cars in the first two weeks of business, in addition to two new cars.

The firm is composed of Messrs. H. N. Halfhill and C. R. Anders, both of whom have had wide experience in the automobile industry.

It will be their policy to sell more Velie cars and trucks through the excellence of their service to present Velie owners.

Both partners are firm believers in the efficiency of The Press classified columns. Twice during the past week they report having placed an ad for three days, which was cancelled after the first insertion because the car had been sold. They vouch that "it pays to advertise" in The Press.

DR. RUSSELL CALLS COMMITTEE MEETING

The members of the committee for the northeast section in the Chamber of Commerce membership campaign, will meet at the residence of the chairman, Dr. Jessie A. Russell, 643 North Maryland avenue, at 7:30 p. m. sharp, tonight, for a brief business meeting, when reports of progress will be made by the various members and plans for future activities discussed.

The members of the committee are F. L. Roland, C. E. Kimlin, Mrs. Jack Thomas, Mrs. Mabel Tight, Dr. Caroline Paine Jackman, W. F. May, Mrs. E. D. Yard, I. A. Ford, Mrs. Nena Bledsoe, J. C. Balme and Mrs. E. W. W. Hayward.

WOMEN'S RELIEF CORPS

Members of the Women's Relief Corps held an uneventful business session Friday afternoon at which they discussed the grand encampment to open September 22, at Indianapolis. Several expressed a desire to attend and it is probable that N. P. Banks Post and Corps will be represented there.

Members of the N. P. Banks Post met at C. A. R. Hall this morning.

One large shape with a wide drooping front brim and a short back, has metalized d'argent ostrich falling over the brim on both sides.

MUSIC CLUB FOLKS PICNIC AND PLAN YEAR'S WORK

Business and pleasures were delightfully combined in the picnic outing enjoyed by officers of the Glendale Music Club yesterday at the summer home of the president, Mrs. Mattison B. Jones, at Hermosa Beach, the ladies in the group being Mrs. Spencer Robinson, Mrs. Warren Roberts, Mrs. Calvin Whiting, Mrs. Dora Gibson, Mrs. L. H. Hagood, and Mrs. Vivian Webb.

After some discussion a decision was reached to divide the club membership into three instead of two groups, viz., active members consisting of professionals and teachers who can be called upon for program numbers; affiliated members who are musicians, but not professionals, and subscription members which will include music lovers, who wish to enjoy the programs, but who will not be called upon for any program work.

The club year will open October 7 with an all American program, in which Charles Wakefield Cadman will be at the piano. Miss Lesser will sing, and Sol Cohen will contribute violin numbers.

The semi-annual dues for the coming year are now due and payable and all members in good and regular standing will be admitted to the concert without charge. If dues have not been paid they can be handed in at the door that night. To the general public there will be a charge of \$1 for the concert.

The year-book in which all members of the adult society will be listed as well as members of the Junior and Juvenile auxiliaries, will be ready for distribution that night.

The program for the second club concert to be given in November, was also discussed. It will probably be featured by numbers given by the Philharmonic Trio, (tenor, violin and piano) from the Philharmonic Orchestra.

Y. M. C. A. LEADERS BACK FROM CAMP

Glendale delegates to the Y. M. C. A. leaders' conference at Kamp Kolo, in the Sierra Madre mountains, returned to Glendale last night with many new suggestions for bettering the work of Y. M. C. A. groups. The party included Dale Wood, George Jordan, Alton Mattice and Paul Edmonds. They were met at the foot of the trail by Secretary Rex Kelley with an automobile loaded with watermelons, which the boys proceeded to enjoy. After that they drove to Pasadena for a swim in the Y. M. C. A. pool before returning to their homes.

They tell interesting stories of camp routine, rising at 5, setting-up exercises, flag raising, breakfast, clearing up, conferences and recreation from 1 to 5 in the afternoon. About 50 boys were in camp from all parts of Southern California, the chief speakers being Bob Shuler of Los Angeles and the group leaders.

HUDSON-ESSEX CAR REPRESENTED HERE

W. W. Reilly and L. S. Davis of Pasadena, two energetic young business men, have taken the Hudson-Exsex Motor Car Agency for Glendale. Their headquarters will be in the garage recently used for the Gardner car headquarters on North Brand.

Mr. Reilly is an experienced auto man and Mr. Davis comes from the Pasadena Furniture Co.

YEOMAN LODGE MEETS

At the meeting of the local Yeoman Lodge (Tropic No 3989), last night, officers for the coming year were elected as follows: John Lawler, to succeed himself as foreman; T. Ward, master of ceremonies, and Miss Dorothy Danner, chaplain.

The appointive officers will be named later, as will also the date of installation.

Announcement was made of the annual basket picnic, to be held Sunday, September 18, at Brookside Park, in honor of the newly elected officers, when there will be games and contests and a general social good time.

The grand chaplain, Mrs. Ethel A. Johnson, was a guest of honor last night.

NIGHT PROWLERS

Another report of night prowlers in the residential section of the city was made last night to the police department. About 10:45 p. m. A. H. Montgomery, 415 South Central avenue, telephoned to headquarters and said that two men were prowling about the neighborhood and requested that an officer be sent to investigate. Two men were sent to the address, but could find no one.

ANNOUNCEMENT

We are having our opening and millinery display Monday, September 12, at 213 North Brand Boulevard. Ladies are cordially invited. ADAMS HAT SHOP.—Advertisement.

DEDICATE PEACE ARCH ON U. S.-CANADA LINE

By PAUL GOODING
I. N. S. Staff Correspondent

BLAINE, Wash., Sept. 10. — The world's first Peace Arch, an international Mizpah in concrete and steel, was dedicated here last Tuesday afternoon on the American-Canadian boundary line. The dedication was held under the auspices of the Pacific Highway Association. Ten thousand Americans and Canadians voiced in songs and cheers their approval of the Treaty of Ghent, a "scrap of paper" signed in the Belgian city on December 24, 1814, between the United States and Great Britain and honored to this day without a breach; a pledge of peace that, along three thousand miles of mountain, sea and plain, has never been touched by the red fingers of conflict—that has never been overshadowed by fort or sword and that no sentry has ever challenged.

Standing in Doric simplicity within 100 yards of Semiahmoo Bay, its massive form rests obliquely on the international line, its lofty pinnacles carrying a reminder of a common parentage and a message of brotherly unity, its gates of bronze thrown wide, its walls inclosing timbers from the Mayflower and the Beaver, the first steam vessel to ride the Pacific.

Four nations participated in today's ceremonies—America, Great Britain, Belgium and France—and added significance attaches to the event, because, on November 11, an international disarmament conference will be opened in Washington. The day itself is significant, for on September 6 the Mayflower sailed from Plymouth for America; on September 6 Lafayette was born, and on that date Marshal Joffre, who had planned to attend the celebration, fought the Battle of the Marne.

Cost is \$250,000.

The celebration was the culmination of weeks of preparation on the part of Blaine, which calls itself "The Peace Arch City"; the municipality of Surrey, in which half the peace portal stands, and the cities of New Westminster and Vancouver. Inspired by Samuel Hill, the tireless promoter of the Peace Arch, and for many years president of the Pacific Highway Association, and by A. E. Todd, of Victoria, and R. Rowe Holland, of Vancouver, B. C., and other citizens of Washington and British Columbia, each of these communities appointed many committees and raised funds to insure the dedication's success.

Blaine alone, which has 2500 inhabitants, had seventeen committees and two civic clubs at work, under the direction of an executive committee of which Mayor H. W. Hunter was chairman. Blaine made provision for parking 4000 automobiles and arranged a four-day program, starting September 4 and closing Wednesday night.

Those attending the ceremonies saw a completed arch, and those who remained in the evening saw it illuminated with 260 electric lights, but the pedestal is still to be completed and the park in which the arch will stand is still to be prepared. When this work is completed the portal and its grounds will represent an outlay of from \$200,000 to \$250,000, it is estimated.

The park will comprise seven acres, half on each side of the line. The American area was acquired and donated by the city of Blaine, which will further cooperate by shifting a street, so that the Pacific Highway will exactly meet the arch. The park on the Surrey side was donated by municipalities of British Columbia.

The pedestal will be built on a hill. It will be a concrete circle 125 feet in diameter, according to W. E. Simmonds of Vancouver, B. C., who had charge of the portal's construction. Curving around it on the west and the east will be a roadway 40 feet wide, and this in turn will be flanked by a parking strip.

Century of Amity

The Peace Arch is the realization of a dream cherished for years by Samuel Hill, who has expended much time and money in the United States, Canada and Europe in its promotion. The project was given impetus on July 4, 1915, when there was held at Blaine a celebration of 100 years of peace between the United States and Canada, and their linking by the Pacific Highway. On that occasion, J. J. Donovan, of Bellingham, moved that a resolution be adopted asking the Governments of the two countries to erect there a marble arch commemorative of the celebration and the century of amity. The motion was adopted.

The Peace Arch, whose architect was H. W. Corbett, was started in July, 1920, and it was finished, in the rough, in November. The center of the portal is exactly on the boundary line. The great memorial rests on a foundation of 76 piles driven into the earth from 25 to 30 feet. On top of the piles is a nine-inch layer of concrete; on that a double layer of steel, then another floor of concrete 21 inches thick; next a double layer of steel,

MILK INSPECTOR'S REPORT ON WORK

That Milk Inspector H. W. Hollenbeck leads an active life is evident by the report turned in yesterday afternoon to City Manager Reeves covering his activities for the month of August.

His report is as follows:
Number of inspections of dairies and milk depots, 14.
Number of notices to clean up corrals, 2; stanchions, 2; milk houses, 4.
Number of orders to provide sterilizers, 1; to use sterilizers, 1.
Number of orders to whitewash buildings, 3; to stop wet milking, 0.
Number of cattle inspections, 876.
Number of cows condemned, 13; temporarily removed from herd, 2.
Number of samples of milk collected, 24; chemical and bacterial, 24.
Number of samples of butter fat collected, 24; ice cream, 2.

and lastly eight inches of concrete. The peak of the arch is 60 feet from the base; its inside dimensions are 40 by 20 feet, and in its construction 800 cubic yards of concrete and 50 tons of steel were used.

Massive, beautiful in its simplicity, the arch impresses one with an aspect of permanency as enduring as the century of peace it commemorates. Its setting of mountain and sea contributes to this impression. On the American side, in large letters on the pinnacles, runs this legend: "Children of a Common Mother." On the Canadian side are the words: "Brethren Dwelling Together in Unity." Within the arch, at the base, hang two bronze gates. Above the eastern gate is expressed the hope: "May These Gates Never Be Closed." Recessed in the outside of the eastern wall is a lead casket containing a piece of timber from the Mayflower which Mr. Hill obtained from the British Society of Friends. In a similar receptacle, on the Canadian side, is a section of the Beaver, which entered the Pacific on June 18, 1836, and which was named after the animal that is symbolic of Canada. Above each casket is a bronze replica of the vessel whose remnant reposes beneath.

Also on the Canadian side is a recess in which rest historical documents and data collected by Professor Edmond S. Meany, of the Washington State Historical Society, and G. O. Buchanan, of the British Columbia Historical Society.

Still another feature of the arch's repositories is the moving picture film "The Sacred Faith of a Scrap of Paper," emphasizing the importance of observing international obligations, and illustrating scenes connected with the celebration.

HATEFUL
HUSBAND.
YOU CAN IMAGINE WHAT
HAPPENED TO HIM...

YOU WILL NOT SPEND FIFTY
BONES FOR A SPRING HAT.
HAVEN'T YOU ANY BRAINS?

WHAT IS
BRAINS,
MOTHER?

YOUR FATHER HAS NONE.
IT IS GREY MATTER
LOCATED IN THE TOP OF
THE BEAN AND --

PROTECTED BY A LAYER
OF SOLID IVORY TWO INCHES
THICK. BRAINS IS THE
SIGNAL STATION OF THE --

SYSTEM. YOU SEE IF
MY BRAINS TELL ME TO
SPEAK, THEN I TALK.

AND IF MY BRAINS TELL
ME TO STOP TALKING,
THEN --

SHE KEEPS RIGHT ON
TALKING.

THE INTREPID DOINGS OF RUFF AND REDDY

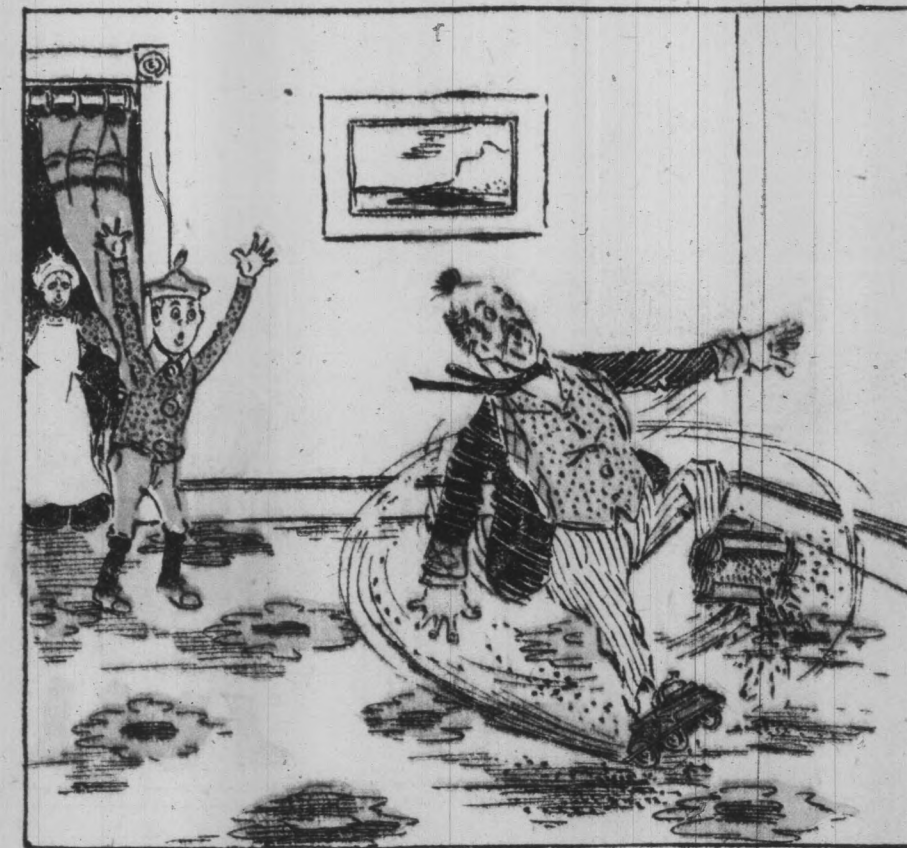

HOUSEWORK MADE EASY BY WILLIE'S ROLLER-SKATE SWEEPERS

DEAR TOMMY: Our upstairs girl left the other day, and Mamma had to do the sweeping, so I got a couple of those baby carpet-sweepers and fixed them up like roller skates. I got along all right, but Papa tried to do a fancy stunt and broke them!

Yours, etc., WILLIE.

EVERY KNOCK A BOOST.
MOVIE FOR OLD AND YOUNG MEN—

KNOCK. KNOCK.

AW, A KNOCK.

WHO CAN IT BE THAT KNOCKETH AT MY DOOR?

IT MAY BE OPPORTUNITY THAT IS KNOCKING—

KNOCK KNOCK

KNOCKING AGAIN?

NO, IT'S NOT OPPORTUNITY, THEY SAY IT KNOCKS BUT ONCE AT A MAN'S DOOR.

THOUGH IT KNOCKED TWICE IT WAS OPPORTUNITY

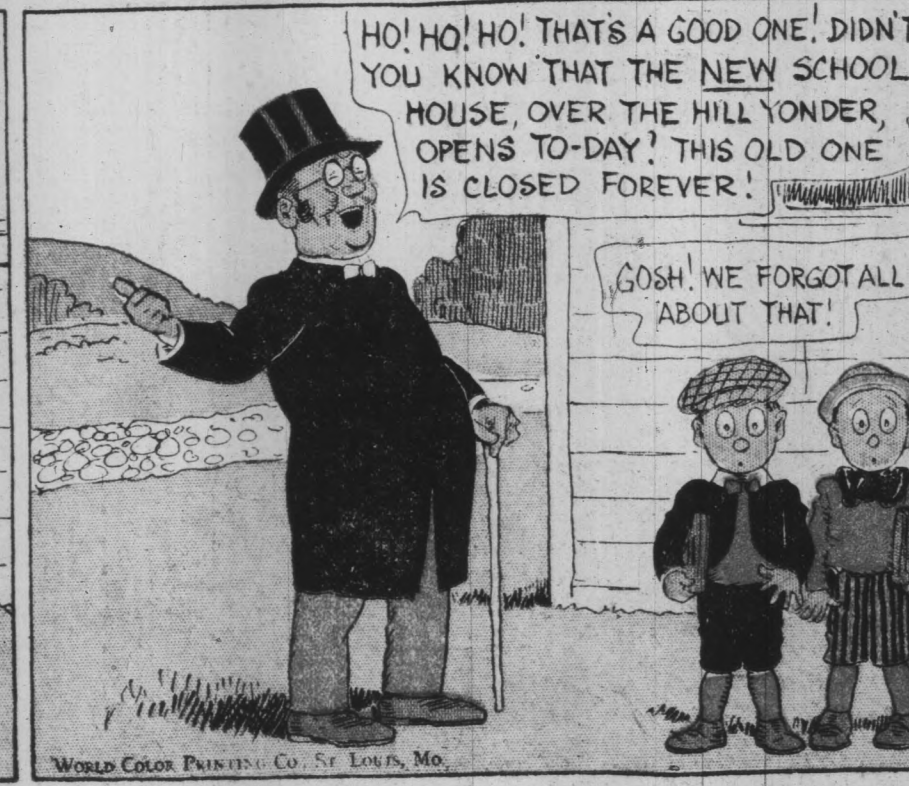

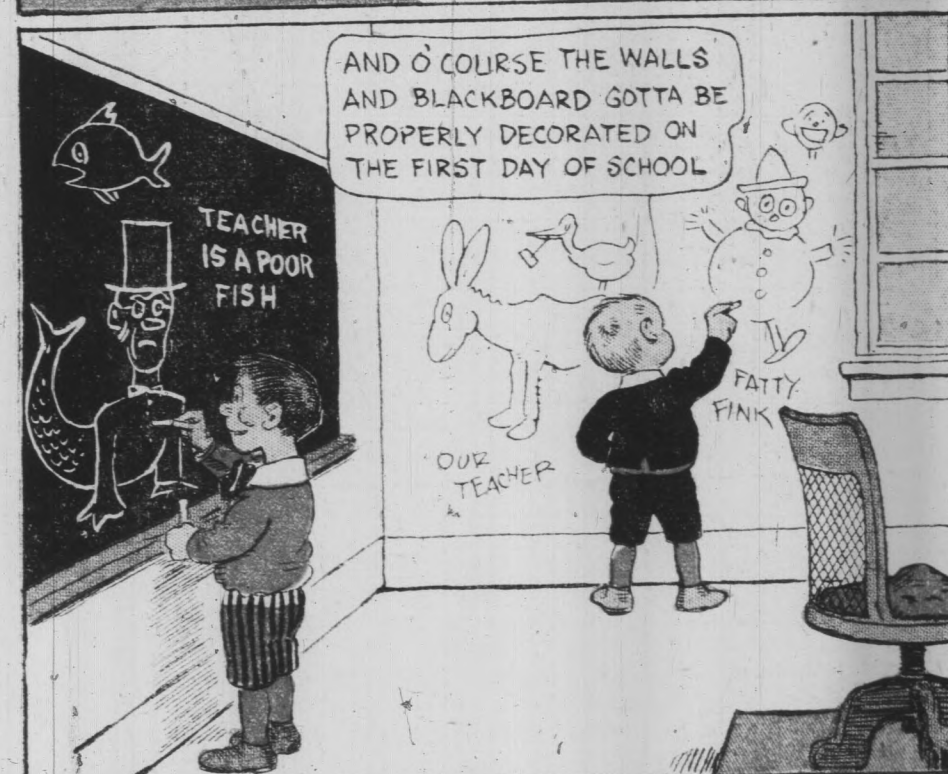

NOTICE— PAY ME BACK THE MONEY YOU OWE ME WITHIN ONE HOUR OR GO TO JAIL. SMITH.

HE ANSWERED NOT— AND HERE HE IS
